DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of the species of Example 19 in the reply filed on 10/7/05 is acknowledged.

Claim 6 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim.

2. The Examiner's search for the elected species determined that it is allowable over the prior art, accordingly the search was expanded to the non-elected species. The expanded search resulted in the following rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5 and 7-18 are rejected under 35 U.S.C. 102(a) as being anticipated by JP 2002-228831 (JP '831). JP '831 discloses colored resin composition for use in a color filter comprising a monoazo dye having a cation derived from an organic amine, wherein the cation is exemplified as $\text{H}_2\text{N}(\text{CH}_2)_6\text{NH}_3^+$. See the abstract, and the dye structures of paragraphs [0030] and [0056].

Pertinent Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

JP 5-333207 discloses a color filter containing a thermosetting resin or a photohardening resin colored by a dye, the salt of which is formed with a counter ion selected from alkyl ammonium, alkanol ammonium and cyclohexyl ammonium.
